

Management Team Bios

Thomas (Tom) French President and Chief Executive Officer

Thomas (Tom) French is President and Chief Executive Officer of Global Wireless Data. He has 20 years of sales and management experience in technology oriented industries. Before founding Global Wireless Data, he served as Regional Vice President of Sales for RAM Mobile Data (formerly known as BellSouth Wireless Data). During the past 15 years, Tom has designed many innovative programs for early wireless technology adoption. These programs were the foundation for successful revenue growth during his tenure. He also has served on numerous senior management committees at RAM Mobile Data and Harris Corporation. He graduated in 1978 with a bachelor's degree from Rutgers College.

Catherine (Cathi) Spornick Chief Operating Officer

Catherine (Cathi) Spornick is Chief Operating Officer of Global Wireless Data and is responsible for all financial and operational areas of the company. During the past 20 years, Cathi has served in numerous capacities as a corporate banker and financial advisor with financial services institutions, including Wachovia and BB&T. Her banking career experience focused primarily on corporate banking for companies with revenues up to \$30 million. Cathi also has experience as a private banking financial advisor for affluent markets. While in executive management for Wachovia Bank, Cathi developed and implemented effective products and sales programs for a two-state area. She graduated in 1979 from Saint Mary's College, Notre Dame with a degree in business administration.
